

- For this market the risk indicator is set at 7, which poses a very high risk because:
- It is volatile and is subject to wild swings.
- Spread may widen with reduced liquidity. You could lose your entire investment.
- You could lose more than your initial investment.

Be aware of currency risk: If your account currency is different to the profit or loss currency (in this case USD) then you will also have additional **currency risk** in trading this product dependent on the exchange rate between the two currencies. This risk is not considered in the indicator shown above. **The total loss cannot exceed the amount deposited with us as we offer Negative Balance Equity Protection (“NBP”).**

Performance scenarios: The scenarios shown illustrate how your investment could perform. **Market developments in the future cannot be accurately predicted. The scenarios shown below are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.**

Instrument CFD (held intraday)		
Instrument opening price:	P	0.7026
Trade size (per CFD):	TS	100,000
Margin %:	M	5%
Margin Requirement (USD):	$MR = TS \times M$	3,513 USD
Notional value of the trade (AUD):	$TN = MR/M$	100,000 AUD

The following assumptions on AUDUSD have been used to create the scenarios in Table 1:

Table 1

LONG				SHORT			
Performance scenario	Closing price (inc. spread)	Price Change	Profit/loss	Performance scenario	Closing price (inc. spread)	Price Change	Profit/loss
Favourable	0.71314	1.5%	\$1,054	Favourable	0.69206	-1.5%	\$1,054
Moderate	0.70611	0.5%	\$351	Moderate	0.69909	-0.5%	\$351
Unfavourable	0.69206	-1.5%	-\$1,054	Unfavourable	0.71314	1.5%	-\$1,054
Stress	0.66747	-5.0%	-\$3,513	Stress	0.73773	5.0%	-\$3,513

The figures shown include all the costs of the product itself. If you have been sold this product by someone else, or have a third party advising you about this product, these figures do not include any cost that you pay to them. The figures do not consider your personal tax situation, which may also affect how much you get back.

What happens if Rynat Trading Limited is unable to pay out?

In the unlikely event that the Company is unable to pay out its clients, retail clients may be eligible to compensation of up to the amount of 20,000 EUR or 90% of the cumulative covered claims of eligible clients, whichever is lower. For further information, please refer to our [Investor Compensation Fund Policy](#).

What are the costs?

Before trading, you should be aware of all associated charges. For additional details please refer to the [Company's](#) trading conditions and [Costs and Charges](#).

Costs over time

By selling you or advising you about this product you may be charged other costs. If so, will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself for a 2-week period. The figures assume you invest \$1,000.00. The figures are estimates and may change in the future.

Cost Composition

The impact each year of the different types of costs.

What the different cost categories mean.

Assumptions

Estimated Holding Period: 2 Weeks

Investment: \$1,000.00

Notional Amount: \$20,000.00

Total Costs: -\$14.38

Impact on Return: -1.44%

This table shows the impact on return per 2 weeks

One-off entry or exit costs	Spread	-0.6%	The difference between the buy price and the sell price is called the spread. This cost is realised each time you open and close a trade.
	Commission & Currency conversion	-0.6%	Any cash, realised profit and losses, adjustments, fees and charges that are denominated in a currency other than the base currency of your account, will be converted to the base currency of your account and a currency conversion fee will be charged to your account.
Ongoing costs	Daily holding cost	-0.3%	A fee is charged to your account for every night that your position is held. This means the longer you hold a position, the more it costs.
Incidental costs	Distributor fee	0%	We may from time to time share a proportion of our spread, commissions and other account fees with other persons including a distributor that may have introduced you.

Liquidation Level

Any open positions you have on your account may be automatically closed if your available funds fall below 100% of the required margin to have those positions open.

How long should I hold it and can I take money out early?

CFDs are intended for short-term trading, in some cases intraday, and are generally not suitable for long-term investments. There is no recommended holding period, no cancellation period and therefore no cancellation fees. You can open and close a CFD on an Instrument at any time during market hours.

How can I complain?

Complaints may be addressed to the Company via email to compliance@rynattrading.com. For further information please refer to our [Complaints Handling Policy](#). If you are not satisfied with our final response to your complaint, you can contact the [Financial Ombudsman of the Republic of Cyprus](#).
